Eligibility for credit

If you paid qualified care expenses for a qualifying family member during the tax year, you may be able to take the family member care income tax credit. See **Qualified care expenses** and **Qualifying family member** below. If you qualify for the credit, you must complete this schedule and attach it to your return.

This credit is allowed on Form ND-1 and Form ND-2 (Optional method).

You must attach a statement showing the type and amount of the qualified care expenses you paid during the tax year. In the case where the expense is for services, you also must identify the person or organization that performed the services.

If you paid qualified care expenses for more than one qualifying family member, you must complete a separate Schedule FC for each qualifying family member.

Qualified care expenses

Qualified care expenses means expenses for home health agency services, companionship services (see below), personal care attendant services, homemaker services, adult day care, respite care, health care equipment and supplies, and other expenses for goods and services which are:

- 1. Necessary to avoid the placement of a qualifying family member in a long-term care facility.
- 2. Provided to or for the benefit of (or needed by the taxpayer to care for) a qualifying family member.
- 3. Provided by an organization or individual not related to the taxpayer or the qualifying family member.
- 4. Not compensated for by insurance or a federal or state assistance program.

Companionship services—Companionship services means services that provide fellowship, care and protection for a person who is unable to care for his or her own needs because of advanced age or a physical or mental disability. These services include household work directly related to the care of the aged or disabled person, such as meal preparation, bed making, washing clothes and other similar services. These services may also include household work not directly related to the care of the aged or disabled person if the time it takes to do this work during any week does not exceed 20% of the total hours worked during that same week.

Companionship services **do not** include services which require, and are performed by, trained personnel. This includes a registered or practical nurse, or services to care for and protect infants and children who are not physically or mentally disabled.

Qualifying family member

A qualifying family member is a person who:

- 1. Is related to you by blood or marriage.
- 2. Is either at least 65 years old or disabled as determined by the Social Security Administration. (*Attach copy of SSA’s determination letter, if applicable.*)
- 3. Has a federal taxable income equal to or less than:
 - a. \$20,000, if not married.
 - b. \$35,000, if married. (*Include both spouses’ income.*)

The taxpayer and the qualifying family member may not be the same person.

Limitations on credit

You may not be able to claim the full amount of the family member care credit that you compute on this schedule if either of the following apply:

- You completed a Schedule FC for more than two qualifying family members. See **More than two qualifying family members** below.
- One or more other taxpayers are also claiming the family member care credit for the same qualifying family member. See **Multiple taxpayers** below.

More than two qualifying family members—The maximum credit that may be claimed is \$2,000 per qualifying family member, up to a maximum credit of \$4,000 for two or more qualifying family members. (*If you are married and are required to file a separate North Dakota return, the maximum credit that you may claim is \$1,000 per qualifying family member, up to a maximum credit of \$2,000 for two or more qualifying family members.*)

Multiple taxpayers— If, in addition to yourself, one or more other taxpayers are also claiming the family member care credit for the same qualifying family member, you must complete the **Multiple Taxpayer Worksheet** (below) to identify the other taxpayers and, if necessary, recompute the amount of the credit that you are allowed. If the total credits separately computed by you and the other taxpayers with respect to the same qualifying family member exceeds \$2,000, the separately computed credits must be disregarded, and the amount of credit allowable to each taxpayer must be determined by multiplying \$2,000 by the ratio that each taxpayer’s payments for qualified care expenses bears to the total payments for qualified care expenses made by all taxpayers. If more than two taxpayers are claiming the credit for the same qualifying family member, attach additional schedules as needed.

If you are required to complete the Multiple Taxpayer Worksheet below, attach the worksheet to your return.
